

LOWELL LIGHT & POWER

Residential Energy Smart Program 2024 Rebate Application

Application Checklist

- Completed and signed customer information sheet (Page 2)
- Completed rebate worksheet (Page 3)
- Copy of invoices/receipts indicating the make, model, payment in full, and date of purchase
- Proof of ENERGY STAR certification for all appliances and heat pump water heaters
- The AHRI certificate for heat pumps and central air conditioning units

Your completed application and required documents must be received by December 31, 2024, or within 90 days of invoice/installation, whichever is later.

Please allow 1-2 billing cycles to receive your Energy Smart rebate from the time your completed application is received. Failure to provide required documentation may result in a delay of receiving your rebate.

MAKE REBATE PAYABLE TO*: Account Holder Contractor Landlord

REBATE AMOUNTS LESS THAN OR EQUAL TO \$50 WILL BE POSTED AS A CREDIT TO THE LOWELL LIGHT & POWER ACCOUNT HOLDER. The rebate will be listed on your bill under the itemized charges. Please allow 1-2 billing cycles for rebate to appear. If "Contractor" or "Landlord" box is checked, a check will be sent.

If "Account Holder" box is checked and your rebate amount is OVER \$50, select how you would like to receive your rebate.

Receive Rebate As*: Credit Posted to Account
 Mailed Paper Check *(you may only select this option if rebate amount is OVER \$50)*

If "Contractor" box is checked, customer signature is required as acknowledgement that the contractor will receive the rebate check. Contractor must also submit a W9 form with this application.

If "Landlord" box is checked, tenant/account holder must fill out and sign the application as acknowledgement that the landlord will receive the rebate.

If no option is checked, rebate will be posted as credit to the account holder.

Rebates will not be reissued if account holder or contractor preference changes after rebate is processed.

Certifications and Signature

I hereby certify that:

1. The information contained in this application is accurate and complete.
2. All rules of this rebate program have been followed.
3. I have read and understand the Equipment Specifications and Documentation Requirements included with this document. I agree to verification of equipment installation which may include a site inspection by a Lowell Light & Power representative. I understand that I am not permitted to receive more than one rebate from this program for any one piece of equipment. I hereby agree to indemnify, hold harmless and release the utility from any actions or claims in regard to the installation, operation and disposal of equipment (and related materials) covered herein, including liability from any incidental or consequential damages. I understand that my submittal of the requested information is for the sole purpose of my program participation. I further understand that this information will be treated as confidential to the extent permitted by law.
4. Customers whose accounts are past due will receive a credit to the account, no check will be issued.

Residential Energy Smart Rebate Application Equipment Specifications & Documentation Requirements

GENERAL PROGRAM RULES

This offer is valid only for Lowell Light & Power residential electric customers for a limited time. Offer is good while funds are available, on a first-come, first-served basis. Program begins January 1, 2024. Your completed application and required documents must be received by December 31, 2024, or within 90 days, whichever is later. Lowell Light & Power reserves the right to withdraw or change this offer without notice. Rebates may not exceed purchase price. Ineligible rebate requests are subject to denial or repayment to program. All equipment must be new and installed in a residential dwelling where electric service is provided by Lowell Light & Power. Call **(616) 421-2514** for more information.

To verify purchase, all applications must include a copy of the invoice/receipt indicating the make, model, payment in full, and date of purchase. See below for specific requirements and/or documents that need to be included with this application based on equipment.

EQUIPMENT SPECIFICATIONS

Central Air Conditioning: Include the AHRI Certificate to verify efficiency for SEER2 14.3, 15, or 16. The indoor coil and outdoor condenser must be a matched set and installed on the same date to be eligible.

Heat Pumps: Heat pumps must be the primary method of heating and cooling the space. Include the AHRI Certificate to verify efficiency for SEER2 and HSPF2. If applying for a cold climate heat pump rebate, include the performance specs showing the COP at 5°F. Rebates cannot exceed \$2000 for cold climate heat pumps or \$1000 for all other non-cold climate heat pumps. Customers purchasing a new furnace or other home heating system in addition to the heat pump are ineligible for the cold climate rebate.

Efficiency requirements for heat pump rebates:

Heat pumps not rated cold climate: HSPF2 \geq 7.5 and SEER2 \geq 13.4.

Cold climate heat pumps for non-ducted systems: HSPF2 \geq 8.4, SEER2 \geq 14.3, and COP \geq 1.75 at 5°F.

Cold climate heat pumps for ducted systems: HSPF2 \geq 7.7, SEER2 \geq 14.3, and COP \geq 1.75 at 5°F.

ENERGY STAR® Refrigerator, Freezer, Dishwasher, Clothes Washer, Electric Clothes Dryer, Heat Pump Clothes Dryer, Room AC, Air Purifier, Dehumidifier, PC, TV, and LED Light Bulbs: Provide proof of ENERGY STAR certification with this application. Refrigerator must be 10 cubic ft. or larger. Limit of 25 LED bulb rebates per customer per year.

ENERGY STAR® Heat Pump Water Heater and Pool/Spa Pump: Provide proof of ENERGY STAR certification with this application. Include technical specification sheets.

Advanced/Smart Power Strip: Does not require ENERGY STAR qualification. The advanced power strip must be new and have one or more outlets that have integrated automatic (controlled) shut-off when connected equipment is not being used. Limit 4 rebates per customer per year.

Programmable Thermostat: Must be installed in a home with central air conditioning.
