

Lowell Light & Power

Income Qualified Energy Efficiency Program

2026 Incentive Application

Ready to start your project? Follow these 3 simple steps.

Step #1: Make Sure Your Project is Eligible

Check the specifications listed in this application and/or speak with an Energy Smart advisor by calling 877-NRG-SAV1 (877-674-7281) to make sure your project is eligible for Energy Smart incentives. All equipment must be new and installed or operated in a residential dwelling, whose electric service is provided by Lowell Light & Power.

Step #2: Complete Your Project

Install your new, energy-efficient equipment, following the specifications listed in this application.

Step #3: Apply for Your Incentive

Once your project is complete, it's time to request your incentive. You must submit:

1. A completed and signed application
2. Itemized invoice(s) for contractor-installed equipment, including installation date, costs for equipment installed and installation labor
3. A copy of the invoice or receipt for products purchased by the customer
4. The ENERGY STAR® logo for ENERGY STAR certified products or equipment

Your completed application and the required materials listed above must be received by November 30, 2026.

Limited funds are available. Please allow 8-10 weeks to receive your Energy Smart incentive check from the time your completed application is received.

Have Questions?

Call 877-NRG-SAV1

Rebate totals of **\$50 or less** will be applied as a **credit on your next LL&P bill**.

For rebate totals **over \$50**, a LL&P representative will contact you to confirm whether you prefer a **check or bill credit**.

Please submit your documents one of three ways:

*In the event that the ENERGY STAR program is ended, the last effective ENERGY STAR specification should continue to be used through the 2026 program year.

2026 Energy Smart Income Qualified Residential Incentive Program Equipment Specifications & Documentation Requirements

Equipment Specifications & Documentation Requirements

General Program Rules

This offer is valid only for Lowell Light & Power residential electric customers for a limited time. Offer is good while funds are available, on a first-come, first-served basis. Program begins Jan. 1, 2026 and expires **Nov. 30, 2026**. Lowell Light & Power reserves the right to withdraw or change this offer without notice. Incentives may not exceed purchase price. Ineligible incentive

requests are subject to denial or repayment to program. Incentive requests must be received by **Nov. 30, 2026**. Call 877-NRG-SAV1 (877-674-7281) for more information.

In the event that the ENERGY STAR program is ended, the last effective ENERGY STAR specification should continue to be used through the 2026 program year.

Equipment Specifications

Central Air Conditioning/Heat Pumps: AHRI Certificate required to verify efficiency. SEER2 15.2 or above required.

Cold Climate Heat Pump: AHRI Certificate required to verify efficiency. Must meet both heating and cooling efficiencies. SEER2 15.2 / HSPF2 8.5 or above required and indicate designated for Cold Climate.

Minisplit Heat Pump System: AHRI Certificate required to verify efficiency. Incentive is per outdoor unit and is based on the efficiency and capacity of the outdoor unit. Tier 1 qualifications are 15.2 SEER / SEER2 AND 7.8 HSPF / HSPF2. Tier 2 qualifications are 18 SEER / SEER2 and 9.3 HSPF / HSPF2.

ENERGY STAR certified Room/Window AC Unit, Dehumidifier, Refrigerator, Freezer, TV, Monitor, Air Purifier and Personal Computer Products: To verify purchase, please send in a copy of the receipt with the product model numbers on it.

ENERGY STAR certified Heat Pump Water Heater: To verify purchase, please send in a copy of the receipt with the product model numbers on it. Limit 1 incentive per customer. Residential electrification measures must serve a single living unit (i.e., central systems in multifamily buildings are not eligible). The heat pump water heater must replace an existing fossil fuel fired storage water heater. Not eligible for new construction.

ENERGY STAR certified Clothes Washer: Must use electric for either water heat or as dryer fuel.

ENERGY STAR certified Electric Clothes Dryer /Heat Pump Clothes Dryer: Must replace a standard efficiency electric clothes dryer. New unit must be high efficiency.

Intelligent Surge Protectors: Does not require ENERGY STAR® certification. The Intelligent Surge Protector must be new and have one or more outlets that have integrated automatic (controlled) shut-off, when connected equipment is not being used (automatic control used to save energy). A copy of the receipt from the store where the intelligent surge protector was purchased is required. Limit 4 rebates per customer.

ENERGY STAR certified Smart Thermostat: Must replace a non-smart thermostat.

Insulation/Air Sealing: Invoice documenting added insulation levels or air sealing activity by area is required. For Air sealing, blower door testing pre- and post- need to be reported.

Windows/Doors: Invoice/receipt with window specification information / equipment model numbers is required.

Duct Sealing: Invoice documentation improvements taken and pre- and post- duct leakage testing results at CFM25 is required.

You can submit your
